

Duderstadt, August 2011

Letter of Recognition

We feel pleased to confirm herewith the long standing collaboration with

CRC Chronopoulos Rehabilitation Centre, Athens/GREECE.

The centre is currently holding valid certifications for the following Otto Bock products

- 1. C-Leg® Leg Prosthesis System,**
- 2. Harmony® System,**
- 3. Helix® Hip Joint System,**
- 4. E-MAG Active Orthotic Joint System with Electronic Stance Phase Control.**

Comprehensive seminars regarding the correct assembly and adjustment techniques – with practical applications on a patient and a certification process monitored by Otto Bock HealthCare - have been attended by the team of CRC Chronopoulos Rehabilitation Centre on the aforesaid products. In order to guarantee appropriate fittings only certified orthopaedic technicians are permitted to fit and adjust the aforesaid components.

The team of CRC Chronopoulos Rehabilitation Centre is generally known as qualified and experienced in the practical use of the various products by Otto Bock HealthCare in terms of leg prostheses, arm prostheses, leg orthoses as well as supports and bandages. This includes among others

1. the MYOBOCK® System for myo-electronically controlled arm prostheses,
2. the range of socket technology products incl. liners of different material properties, shuttle lock and vacuum systems etc.,
3. the range of leg prosthetic components for the different mobility grades according to MOBIS®
4. and others.

With kind regards,

Johanna Hosbach
(Junior Area Manager)
